VELCRO RECEPTIVE PRODUCTS

PRODUCT DETAILS & SPECIFICATION

Foam:

Manufactured using elastic closed cell foam or open cell PU foam. Available in several colours. All our foam is of high quality and manufactured in the UK.

Backing:

Loop material for attachment to hook material on the base pad of a sanding machine.

Abrasive:

Brown Aluminium Oxide, White Aluminium Oxide, Black Silicon Carbide, or Green Silicon Carbide abrasive in grit grades 60 to 320.

Sizes:

Pads - Size 140mm x 115mm x 5mm
Discs, with or without dust extraction holes - Size 150mm diameter x 5mm
(custom sizes available)

Brand Printing:

We offer colour screen printing on the pads and discs. Grit size identification and/or bespoke brand marking options available.

Packaging:

Sanding pads are available in cost effective bulk pack boxes of 250 pieces. Discs are available in bulk pack boxes of 200 pieces. Alternatively, we offer customer specific packaging such as display cartons or shrink wrapping.
